EXHIBIT 32
DATE 3-5-07
HB 808

I urge Legislators to restore to the budget the \$4.17 million found in PL 20016, as included in the Governor's budget and previously approved by the Joint Appropriations Subcommittee for Health and Human Services. Failure to include this "present law adjustment" will create significant hardships for a system that is already besieged and will significantly impact every community's ability to provide child care for working families and their young children. These cuts also threaten small businesses in small communities across Montana.
